C., 31 AND 32, AS AMENDED, ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. The Leuna Construction and Engineering Bureau is now engaged in copying equipment manufactured by the Lurgi Gesellschaft für Wärmetechnik, Frankfurt/Main. The results have been inadequate, and ~~Dr. L. Frank~~ Frank of the Section for Experimentation and Technology of the DWK requested the former Schlegelstrasse Branch of the AEG to assist in this work. The AEG declined as they had no such experience.
2. The Lurgi roasting kiln type L.C.5 has been copied and installed at the Chemische Fabrik von Heyden, Dresden-Radebeul.
3. The first vertical shaft (Königswelle) to be constructed in the zone was installed at Fertilia, Coswig. The construction material is not adequate and cracks, fissions, and splits are developing. The shaft will probably last about three months.
